I've always sought out opportunities and challenges that are meaningful to me. Although my professional path has taken twists and turns - from Cosmetologist, to Barber, to Massage Therapist, to small business owner and Customer Service Representative - I have never stopped engaging my passion to help other and solve problems.

As a web developer, I enjoy utilizing my meticulous organizational skills, my love for creating projects and my strong work ethic. That is why I am excited to make a big impact on a high growth company.
